

You asked. We Listened. We Delivered!

Find out what's new & what's improved in **sympac**

Sympac GO on Android

Sympac Go can now be deployed to an Android phone and the camera is used to scan barcodes!

Get Sympac point-of-sale, stocktake and product management functionality in the palm of your hand.

Connect via WiFi to communicate with your in store Sympac software.

If you're an existing SYM-PAC customer, please email sales@sympac.com.au to organise licences.

We've made some changes

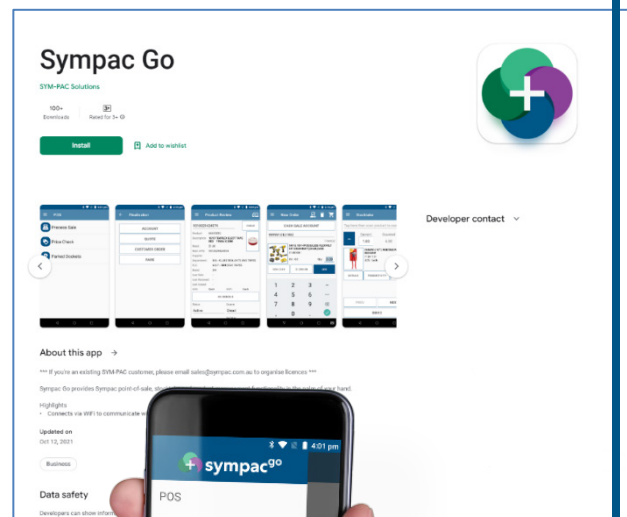

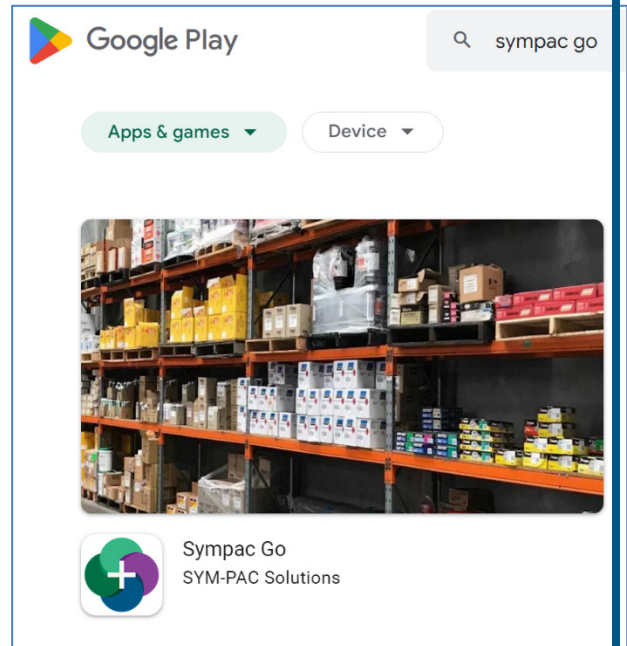

- **NEW** Connection time out setting to provide flexibility when operating in environments where WiFi connectivity may be an issue
- **REINSTATED** functionality to select items from the Stocktake Summary page

We've fixed some issues

- **FIXED** issue in POS where Cart page was not displaying correct customer information after switching customers
- **FIXED** issue in POS where price was not being automatically retrieved when scanning a tally product
- **FIXED** issue in POS where cursor focus is set incorrectly after scanning a tally item

Go to the Google Play store to download the APP and give us a call today to find out more about licenses for access.
