## Disaster Demo - Monday 12th February 10am - Sympac User Group

Start the year with a bang! Watch us Bash & Crash a working laptop and recover your business in minutes

Crash Technology is an IT Managed Services provider with over 20 years experience. Information Technology is our passion, we work with small businesses like building hardware suppliers, manufacturing, health, community care, legal and financial professional service sectors. Our number one focus is to deliver the most out of your IT systems and help your business flourish and grow. We support over 20 Mitre 10 stores across regional NSW, Victoria, South Australia and Queensland.

Key reasons to partner with Crash Technology?

**Reliable** – we have worked with Sympac for over 20 years, supporting Timber and Hardware Retail
**Innovative** - assist everyone to stay up to date with developments in IT infrastructure, Security and Business Continuity
**Specialist** - In the **Datto SIRIS** Business Continuity solution giving you real time backup of your server environment, keep on  trading in case of system failure or attacks such as crypto locker/ransomware and other risks
**Knowledgable** - have extensive years of experience supplying Managed IT Services to IHG members
**IT Security Experts** - Affiliated with the Australian Cyber Security Centre, monitoring cyber security threats in real-time
**Compliance** - Knowledge and tools to make your business compliant with the Australian Essential 8 security guidelines

Customer References

"Crash Technology have successfully delivered projects to refresh our server infrastructure, revised security provided the Datto business continuity solution and did an excellent job of ensuring all data and services were available across our Sympac and Truss server applications. If you want reliability, friendly customer service and professionalism I highly recommend the Crash Technology team."  - Vitina Costa Costa's Mitre 10

"We approached Crash Technology in 2023 to check our data security. We found them to have vast expertise for IT solutions. They provided an excellent transition from our legacy security/firewall solution to a best practice VPN/Firewall/Security solution from Sophos. They have also deployed the Datto BCDR backup solution across all our sites to minimise downtime and help us be compliant with the Australian Essential 8 security guidelines.  Together we work on continuous improvement and streamlining of our IT systems and we look forward to their ongoing support. We highly recommend their services."  - Ron Leenstra Womersley's Mitre 10 Group
